A Little Time for Puzzles

Puzzles can be a pleasant way to slow down, focus on one thing at a time, and share a little friendly competition with someone else. This collection is designed for comfortable reading and casual enjoyment. There is no timer, no score to beat, and no reason to rush.

The word searches use familiar, nostalgic themes. The sudoku puzzles begin easy and become moderately more challenging. The word scrambles use everyday words and give you plenty of room to write.

Use a pencil, take breaks whenever you like, and check the answer section only when you are ready.

Enjoy the quiet satisfaction of figuring one out.
