Referral Script Templates

[Ask via Email or Message]

Hey [Name], quick ask:

You've seen firsthand how the AI visibility upgrade works, and how it gets your site back into Google's new system.

If you know any other local business owners who might benefit from the same fix, I'd love a quick intro. Especially folks who:

- Rely on Google to get found
- Haven't updated their site in a while
- Are wondering why their web traffic's dropped off

Even a name or two would be amazing. I'm happy to send them a quick overview and handle everything from there.

I appreciate you either way.

Referral Incentive Version

Hey [Name], appreciate working with you; this is just a quick heads-up.

I've opened a few referral slots this month for business owners who might want help showing up in Google's new AI Mode.

If you refer someone and they come on board, I'll credit your account \$100

No pressure, but if you know someone who might need this, feel free to send them my way or connect us.

Thanks again!
