Hey [Name], I help small businesses show up in Google's new AI-powered search. Most sites are invisible right now and losing traffic fast.

I took a quick look at your page and thought you might want to know how to fix that (super simple, low-tech stuff).

If you want, I can send a quick breakdown: no pitch, just helpful info.

Want to take a look?

Hey [Name], just a heads up... most local sites aren't showing up in Google's new AI system. If you want a quick fix, I can check your site and show you what to update.

[Value-First Soft Pitch]

Hey [Name], I work with small business owners to help them show up in Google's new AI search feature.

Happy to do a free visibility check for your site if you're curious. It takes five minutes and I'll give you a few simple steps to get found again.

[Follow-Up After No Response]

Totally understand if now's not the time. Just wanted to make sure you saw this, most biz owners I talk to haven't even heard of Google's new AI Mode yet.

Let me know if you'd like me to check your site. Happy to help...
