

Digital Scratch-Off Profits

Top Traffic Sources

Solo Advertising Vendors

Wayne is a well-known vendor who can deliver good volume for your offers. The leads that you get will most likely be high quality.

<https://trafficdomination.rocks/wayne-crowe-traffic>

Jason Thompson might just be the best vendor on Udimi. He delivers quality traffic in profitable volumes.

https://udimi.com/p/jason_soloads

This is the best individual solo ad provider. He is a very helpful guy if you reach out to him; however, he will be slower to deliver than most other vendors.

<https://jaszdeep-soloads.com/>

This is a fantastic service, that delivers some of the best traffic in good volume.

<https://trafficblade.com/>

This vendor will buy Google ads and sell you the traffic.

<https://soloads.successwithmark.rocks/>

You will find a good volume of traffic from this vendor.

<https://vm-connection-traffic.com/>

Another quality vendors with a great traffic source, Mr. Freeman will send buyer traffic.

<https://udimi.com/p/buysoloadsfromproovensource>

Indulis Staskiewicz is a solid provider of buyer traffic, however the volume will come in smaller batches.

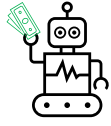

https://udimi.com/p/indulis_targeted_traffic

Lia Malassa is another great provider whose traffic will generate sales.

<https://udimi.com/p/oju9u>

Another top reseller of solo ads is Brandon Sean. This will be quality traffic with buyers, however it will be slightly more expensive than others.

<https://udimi.com/p/brandonsean>

Digital Scratch-Off Profits

A smaller vendor with lower volume, Sarah Chew still sends buyers.

<https://udimi.com/p/sarahchew>

You will get good traffic volume and sales, making Angelo's traffic hold real value.

<https://udimi.com/p/angelosayson>

Khaled Ibrahim will also deliver good volume and buyers.

<https://udimi.com/p/3s5yx>

Search and Content Networks:

<https://ads.google.com/home/>

Google Advertising will deliver the most volume, highest quality traffic money can buy.

It is generally the only source of traffic you need; however, they are difficult to deal with.

You can advertise any niche if you are compliant with their rules. This network contains search and native ads.

<https://ads.microsoft.com/>

This is similar to Google but you will find it has much lower traffic volume. On the upside, it is much easier to be compliant on Microsoft's ad platform. If you do this right, it will become a gold mine for you. This network contains search and native ads, just like Google.

Top content nets:

<https://www.taboola.com/>

This is the biggest game in town with high volume, and quality traffic in health niches, survival, hobby, and personal finance.

<https://www.outbrain.com/>

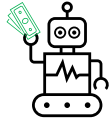

Outbrain is the second largest content network with quality traffic in health niches, survival, some hobbies, and personal finance.

<https://www.revcontent.com/>

This is a big network with quality ad placements. In my opinion, it is one of the top networks you can leverage.

<https://www.mgid.com/>

This is a smaller but more make-money-online friendly network. Will work great for warriorplus.com and Clickbank.com offers. We always looked at mgid as a little hidden gem in a sea of traffic sources as traffic we've gotten from the network has been quite profitable.

Digital Scratch-Off Profits

Other Sources:

These are great secondary sources that have less restrictions on what you can advertise.

<https://gemini.yahoo.com/advertiser/home>

This is Yahoo's answer to advertising. Believe it or not, Yahoo still exists thanks to a niche audience of loyalists. It works with a number of publishers, and due to what I suspect is its waning market share, has less restrictions on advertisers.

<https://content.ad/>

This small network of publishers has less compliance issues than the others and profitable traffic at reasonable prices.

<https://zeropark.com/>

This is a self-serve network that will get your lower quality traffic, but will generate clicks nonetheless.

<https://www.rtxplatform.com/>

For the most part, you can advertise whatever you want on RTX. It is a great self-serve platform. It is a small network, however, so don't expect a deluge of traffic.

Push Notifications And Pop Ups:

High volume mobile traffic that converts to leads with the right landing page (use my default robot page)

<https://joinpropeller.com/>

<https://www.pushground.com/>

<https://adoperator.com/>

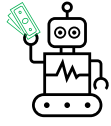

Adult Traffic

Not many people realize that there's a ton of money to be made on adult websites and you don't even need to take off your clothes to cash in... (unless you want to...)

The volume on these sites is pure insanity, there is virtually no compliance or oversight, so you can literally go nuts with your advertising. It is also very cheap.
